

Environment Policy

We believe that our premises have been modernized to suit the children's needs and to offer all aspects of learning and play in a safe, secure and friendly environment. The nursery has taken and will continue to take advice from the local authorities involved to maintain a safe and happy environment for all children to enjoy. The premises provide adequate space in an appropriate location, are welcoming to children and parents/carers and offer access to the necessary facilities for a range of activities that promote the children's development.

The registered person will ensure that the premises are kept clean, well-lit with adequate natural lighting, adequately ventilated and maintained in a suitable state of repair and decoration.

Local planning and building control requirements are met.

The nursery has access to a telephone and mobile telephone.

The nursery has gas central heating which is run off a combi boiler and the staff will ensure the rooms are maintained at a temperature of at least 18 degrees centigrade.

The nursery has solar panels fitted for electricity.

All linen will be washed/dried daily.

The nursery is situated in the heart of the village, close to local amenities and local schools. There is an enclosed car park for parents/carers dropping off and collecting children.

The office is an area where confidential information and necessary records can be stored securely and where staff may talk to parents confidentially.

Children do not have access to the kitchen unless it is being used solely for a supervised children's activity. The kitchen conforms to environmental health and food safety regulations.
